

SKIN CARE AT A GLANCE

*Customized skin care—
for a “naturally beautiful” you!*

No two women are alike. So why should your skin care regimen be the same? Created with your needs in mind, our necessities and specialty products are customized to match your skin type and are made with the most effective ingredients—like supplement-strength vitamins, natural antioxidants, and plant extracts—to give your skin a natural, healthy glow.

Nicole Miller products are made with more natural ingredients and supplement-strength vitamins to nourish and promote the healthiest skin possible.

Care for Your Skin

- You must make time to take care of your skin. Otherwise, the best makeup, the latest hairstyle, and the most consistent exercise programs will only give you partial results.

Combat the Environment

- Your skin takes a beating every day from environmental damage (like UV rays and pollution). Nicole Miller products use added age-defying vitamins, antioxidants and sunscreens to help combat the negative effects of harsh environmental elements.

Your Personalized Regimen

- Is your skin normal to oily or oily to dry? Nicole Miller has products for every skin type! Start with a cleanser and follow up with the toner and moisturizer of your choice.

Take a good look in the mirror, then look at a picture of yourself when you were 9 or 10 years old. See a difference? Have you gathered a few more wrinkles, donned a couple of age spots, or lost that youthful glow? When you're young, your skin is resilient—it has the ability to stretch and then snap right back into place. However, as you get older skin loses its snap and begins to sag—the beginning of wrinkles. Laughing, crying, frowning, and rubbing contribute to the problem, but the main villain comes from the environment.

Every day your skin is exposed to sun, wind, and pollution—all of which take a toll by stealing precious moisture. In addition, as you age, skin loses the natural moisturizing factors that keep it young and supple. That's why *Nicole Miller* products were created with your needs in mind—made with the best, most effective ingredients—to give your skin a natural glow.

Continual moisturization is an absolute must for younger-looking skin.

It is important to know which type of skin you tend to have in order to tailor your care to what best fits you. Following are three general categories, in one of which you may find yourself. However, skin changes with fluctuations in the climate, with stress, diet, and lifestyle. So keep in mind that though your skin may tend to generally fit into one category, it may easily display attributes of another at different times.

Determine Your Skin Type

- A. Larger, more easily clogged pores
- B. Smaller, less noticeable pores
- C. A combination of A and B

- A. Produces blemishes easily
- B. Feels tight and is red and blotchy
- C. A combination of A and B

- A. Surprises you with shiny areas throughout the day
- B. Appears flaky, rough, and shows scaly patches
- C. A combination of A and B

- A. Seems oilier after using certain skin care products
- B. Reacts negatively to most skin care products
- C. A combination of A and B

If the majority of your answers are As, you have normal-to-oily skin; Bs have normal-to-dry skin; Cs have combination skin.

NICOLE MILLER FORMULAS—THE BEST FOR YOUR SKIN
