

Another wellness solution from

**Renew Intensive Skin Therapy** is complete dry skin therapy available exclusively to Melaleuca customers. *Renew* delivers the results that matter most to you by locking in moisture and nourishing dry, itchy skin without leaving your skin greasy or washing off.

*"This lotion has relieved our dry skin"*

"I'm 30 years old, and for the last several years my family and I have suffered from extremely dry skin due to eczema. We have suffered intensely, and we tried every cream on the market, and our dry skin only got worse. Thank you for *Renew Intensive Skin Therapy*. This lotion has relieved our dry skin."

*Chantal Bussiere, Barraute, Quebec*

"As a registered nurse at a children's hospital, I wash my hands several times a day. After working just one 12-hour shift, my hands become extremely dry and cracked—and not just during the winter season, but all year round. Thanks to *Renew*, my hands feel wonderful. *Renew* goes with me every time I go to work. Thank you, Melaleuca, for saving my hands!"

*Sara Tisdale, RN, BSN, Newton, Iowa*

In addition to *Renew Intensive Skin Therapy*, you can try *Renew Bath Oil*, which also uses *T36-C5® brand Melaleuca Oil*. One capful of oil added to your bath works with the warm water to soothe and soften rough, dry skin.

Every Melaleuca product is backed by our 100% satisfaction guarantee. If *Renew Intensive Skin Therapy* does not meet your highest expectations, contact us within 60 days for a full credit or exchange.

## Renew Even the Driest Skin

# Introducing the only dry skin therapy you'll ever need.

Like most people who suffer from dry skin, you've probably tried almost every lotion and cream on the market looking for relief. But they either didn't last or left your skin greasy. Now the search is over.

## Renew Intensive Skin Therapy

- Hydrates and soothes dry, itchy skin
- Light, long-lasting, nongreasy formula that doesn't wash off
- Clinically shown to provide longer-lasting moisture than the leading dermatologist-recommended lotion

## The Complete Moisturizer

**Renew works in two ways:**

- Keeps skin healthy-looking and prevents dry skin when used daily
- Relieves dry skin associated with bothersome skin conditions

**The result? Softer, conditioned skin that doesn't feel greasy.**

## Glycerin Delivers a Remarkable Difference

Aquaporin 3, a moisture channel in the skin, transports glycerin better than water...glycerin makes skin look and function better...these findings indicate glycerin may...help people relieve their dry skin.

*Journal of Investigative Dermatology, December 2003*

## The Science Proves It

Before, you had to make a choice: nongreasy or long-lasting—*Renew* doesn't ask you to choose.

**Eucerin**

**Renew**

We applied equal amounts of Eucerin® on one hand and *Renew* on the other. We then placed oil-absorbing sheets on both hands to test absorption and to see how much excess grease each dry skin lotion left behind. *Renew's* superior penetration is apparent with little to no oil residue transfer on the oil-absorbing sheet. In contrast, Eucerin left a heavy residue of oil.

## Exclusive Combination

*Renew's* exclusive formula uses carefully researched amounts of naturally sourced ingredients to penetrate the top layer of skin:

### Malaysian glycerin

- Derived chemical-free from high-quality Malaysian palm kernels and oil—unlike competitors' animal-based glycerin
- Helps draw in and maintain moisture levels while letting your skin breathe

### Allantoin

- Derived from the herb comfrey
- Acts as a moisture barrier to help prevent damage caused by dryness

### T36-C5® brand Melaleuca Oil

- 100% natural essential oil
- Soothes dry skin

**Experience life without dry skin thanks to *Renew Intensive Skin Therapy*—a lotion that belongs in every medicine cabinet.**
